

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

MEMORANDUM

DATE: 10.26.79

TO: Mary Drake

FROM: John Williams

SUBJECT: Shell Oil Company Wood River Petition for Variance
from Provisions of Rule 501 for inter plant hauling
of Special Wastes.

EPA Region 5 Records Ctr.

379818

Attached herewith please find copy of Shell Oil Company's response to Agency Recommendation supplying information requested by the Agency which was deficient in the Petitioner's original petition.

As per our telephone conversation of thisafternoon I am requesting Joe Petrilli by copy of this memo to identify any hazardous materials which may bring the petitioner outside the provisions of Section 21(e), and his comments on Petitioner's response.

I agree with you that we should continue to insist that special waste disposal permits be sought and obtained for onsite disposal, if they are not doing so already, or have not got permits.

Copy Joe Petrilli

Dave Wieties ✓

Bill Child

Tom Cavanagh - Do they have permits at present to dispose of these wastes on site?
